

25th November 2025

PRICE CHANGE NOTIFICATION – Effective from Monday 2nd February 2026

Dear Valued Customer,

We value the strong partnerships we share with our customers and remain committed to being transparent about the challenges impacting our industry.

As you will know, rising inflationary pressures have continued to affect markets across Australia, and despite our best efforts to absorb these increases, we have reached a point where an adjustment is necessary to ensure we can maintain the quality, reliability, and service you expect from Vinidex.

Therefore, Vinidex will be implementing **a price increase of 3.20% across all product ranges effective from Monday 2nd February 2026.**

We will endeavour to supply all existing orders before the implementation date; however, any product not delivered by **Friday 30th January 2026** will be priced at the new rates.

We greatly appreciate your understanding and ongoing support. Should you wish to discuss this change further, please don't hesitate to contact your **Regional Sales Manager.**
