29 May 2026

Dear valued customer,

We would like to inform you that Hager Electro Pty Ltd will be implementing a price increase, effective from the **1st of July 2026**.

This adjustment is necessary due to persistent inflationary pressures affecting our labour, freight, energy, and logistics, along with rising raw material and component costs that we are unable to fully absorb.

Please note that pricing changes will differ across our product portfolio. For specific details, refer to the attached price list.

To maintain fairness in product allocation for all branches throughout Australia, we will be carefully reviewing orders placed before July 1st, 2026. This means that cumulative orders for the month of June should not significantly surpass your usual ordering patterns.

We ask for your understanding as our standard service may be impacted during this period. All orders received from June 1st will be shipped within 48 hours to ensure timely delivery.

Additionally, any orders that are not fulfilled and invoiced before July 1st will be cancelled and will need to be reordered at the new pricing.

Thank you very much for your ongoing support, we truly value our partnership.

Regards,

Hager Electro Pty Ltd
