

29th May 2026

To Our Valued Customers,

Price Adjustment Notice – Effective 1 July 2026

The Kounis Group remains committed to delivering the high-quality products and reliable service our customers have come to expect across Australia.

To ensure we continue to maintain these standards, we wish to advise that, effective 1 July 2026, prices across all Kounis products will increase by 5%.

This adjustment is necessary due to ongoing increases in operating costs across several areas of our business including raw materials, manufacturing, freight, energy and supply chain services. Over the past year, we have absorbed a significant portion of these rising costs in an effort to minimise the impact on our customers. However, to maintain the quality of our products, the reliability of our service and continued investment in our operations, a pricing adjustment is now necessary.

We understand that price increases can present challenges, and this decision has not been made lightly. We sincerely appreciate your continued support, understanding, and loyalty.

The Kounis Group greatly values your business and remains committed to providing premium products and exceptional service well into the future.

Should you wish to discuss this further, please feel free to contact me directly.

Yours sincerely,

Dave Kounis
Managing Director
Kounis Group of Companies
