We are writing to inform you of an upcoming price increase which will come into effect from 18<sup>st</sup> May 2026. Prices for our products and services will increase 2 – 6% (approx average 2.8%), depending on specific range and/or lighting solution.

Key factors driving this increase include price rises in raw materials, logistics and transportation cost increases.

Despite these challenges, we remain committed to delivering the same high-quality products and exceptional service that you have come to expect from us.

Thank you for your understanding and continued support. We deeply value your partnership and look forward to strengthening our relationship over 2026.
