

MECHTRIC

1 December 2025

Dear Valued Customer,

We would like to inform you that, effective **1 January 2026**, Mechtric will be implementing a price adjustment across selected ranges within our portfolio. Our last price increase was in March 2023, and we are proud to have maintained consistent pricing through what have been challenging times for our industry.

This upcoming adjustment reflects a combination of price realignments and vendor-driven changes. Despite an overall price increase, our collaboration with our suppliers has allowed us to achieve important savings. We are pleased to pass these benefits on to you, resulting in reduced prices for several products and solutions.

If you have any questions or would like further clarification, please don't hesitate to reach out to your local Mechtric representative.

We thank you for your continued support and partnership.

Kind regards,

The Mechtric Team
