

Date: 19th December 2025

Dear Valued Customer,

IMPORTANT NOTICE: Price Rise Notification

Ongoing global inflation continues to place significant cost pressures on businesses worldwide. Rising freight and energy costs, together with increased component prices, have made it necessary for OMRON to review its pricing for the year ahead.

As a result, effective from **28th February 2026**, OMRON will implement an average price increase of approximately 4% across most products.

Please note that all quotations issued will be honoured for their stated validity period (typically 30 days).

OMRON greatly appreciates your continued business and support. Should you have any questions or concerns regarding this price adjustment, please do not hesitate to contact your local OMRON representative.

As a reminder, ordering your OMRON products online is now a faster, more efficient, and convenient way to purchase. Through our online store, you can enjoy a range of benefits, including special pricing, order tracking, priority access to promotions, and more. If you have any questions regarding the effective date or require further information, please get in touch with us.

Yours sincerely,

Henry Zhou
