

22nd of June 2026

Subject: Cable Price Adjustment Letter

Dear Valued Customer,

Due to the continued rise in copper prices over the past several months, Prysmian will need to implement a price increase of **3–4%**, effective **Wednesday, 1 July**.

While copper prices have shown a steady upward trend, the market remains highly volatile and may shift downward as quickly as it has risen.

We encourage you to consider this uncertainty when planning your upcoming requirements.

Please note that, given the current market conditions, Prysmian will be unable to accept order cancellations once orders have been placed.

We appreciate your understanding and continued support. Prysmian remains committed to providing the highest level of service and maintaining the strong partnership we have built with your organisation.

Regards,

Greg Lockerbie
