Notice of Price Review

In line with our trading terms and in response to the changing market conditions, we wish to advise of our intent to implement a general price adjustment to account for external pressures on our costs, including increases advised by our suppliers. The Price adjustment will apply across our range of products and will become effective on the 1st of July 2025.

A full and comprehensive price file will be sent on or before the 1st of June 2025 with the adjusted pricing to allow thirty (30) days for the new pricing to be loaded before it will be applied in the field.
